How Did Your Student Do on the Test?

Please note, scores that were previously reported on the 2022-23 provisional scale have been converted to the new B.E.S.T. score scale approved by the State Board of Education in October 2023. These converted scores are provided for informational purposes only to indicate how a student would have performed on the new scale if it had been in place at the time of testing. If you have questions about your student's original score on the provisional scale, please contact your child's school.

Percentile rank will be reported after the PM window closes. This rank will indicate where your student's performance falls compared to all other students who took the same test in this window.

Please visit the FAST Portal at www.flfast.org to access additional information and resources, including a Parent Quick Guide that explains each element of this report and what it means for your student.

Students who scored a Level 1 or Level 2 may be eligible to receive free books on a monthly basis through the New Worlds Reading Initiative. Visit <https://newworldsreading.com> for more information.

Students who scored a Level 1 or Level 2 may be eligible for a \$500 reading scholarship to be used for instructional materials, tutoring, and summer or after school educational programs. Visit <http://Stepupforstudents.org/reading> for more information.

Each progress monitoring assessment covers the full-year content expectations for a particular grade level and subject. Therefore, at the beginning of the school year (PM1) and at the middle of the school year (PM2), students may not yet be at grade level; however, this does not necessarily indicate that a student is not on track to succeed by the end of the school year (PM3). The results from PM1 and PM2 are for informational purposes only, providing teachers and families information to help guide instruction and support throughout the school year based on a student's strengths and weaknesses.
